GSTIN 01EMCPP3237G1ZE | PAN EMCPP3237G

CAPABILITY STATEMENT

## Core competencies

- Tunnel support works, portal construction and underground concreting.
- Highway packages: flyovers, bridges, culverts, retaining structures and drainage.
- Railway substructure: RCC piers, abutments and bridge foundations.
- Concrete technology: mix design coordination, PCC/RCC placement, curing regimes and testing.
- Slope stabilisation and retaining wall systems in hill terrain.
- Building works: industrial, commercial, residential and sports facilities.
- Project management consultancy, estimation, tender support and technical advisory.

## Differentiators

- Proven delivery on Himalayan terrain projects including NH-44 corridor works.
- In-house engineering supervision and daily progress logging on every site.
- Material traceability with documented test certificates.
- Founder-led accountability with direct client access.
- Mobilisation capability for remote and high-altitude work fronts.

## Past performance

| Project | Contribution |
|---|---|
| Tunnel T-77D, Jammu & Kashmir | Tunnel construction works leading to the successful breakthrough milestone in March 2022, with Beigh Construction Company (BCC). |
| Chenani–Nashri Tunnel Project | Plain Cement Concrete (PCC) works as part of the tunnel infrastructure programme, with Beigh Construction Company. |
| Banihal Bypass Flyover | Flyover construction works with M/S Rashid Ahmed Beigh (RAB) for the MG Construction Company project. |
| Railway Bridge BR-138 | Reinforced concrete pier construction works with M/S Rashid Ahmed Beigh (RAB). |
| Amaravati–Chikli Road Project | 50 km drainage system executed as part of a major road infrastructure development. |
| BHEP Chandarkot Project | Retaining wall construction supporting slope stabilisation and long-term structural safety. |

CAPABILITY MATRIX

## Service disciplines

| Discipline | Scope |
|---|---|
| Civil Construction | Foundations, RCC frameworks, masonry, waterproofing and finishing works executed to IS codes. |
| Road Construction | Urban, approach and internal roads including sub-base, WMM, bituminous layers and drainage. |
| Highway Infrastructure | Highway packages, flyovers, bridges, culverts and allied structures on national corridors. |
| Tunnel & Underground Works | Tunnel support works, PCC/RCC lining support, portal works and slope stabilisation. |
| Railway Structures | Reinforced concrete piers, abutments and bridge substructure works for railway alignments. |
| Industrial Construction | Factories, warehouses and pre-engineered building structures with heavy-duty flooring. |
| Commercial Construction | Offices, retail and mixed-use developments delivered on programme. |
| Residential Construction | Independent homes and apartment communities with quality finishing. |
| Sports Infrastructure | Stadiums, athletic tracks, courts and allied sports facilities. |
| Project Management | PMC services for owners — planning, cost control, quality audit and reporting. |
| Renovation & Maintenance | Structural repairs, retrofitting and annual maintenance contracts. |
| Construction Consultancy | Feasibility studies, tender support, estimation and technical advisory. |

## Quality, safety & compliance

- Execution to IS codes and applicable statutory norms, including BOCW labour welfare requirements.
- Stage-wise quality inspection with documented handover dossier: as-builts, test reports, measurement books and photo logs.
- Trained safety officer on site-based projects; incident reporting and root-cause review within 24 hours.
- Environmental controls for dust, noise, spoil and waste on every active front.

AT A GLANCE

## Company data

| | |
|---|---|
| **Legal name** | APEX CORE INFRA |
| **Business type** | Construction and infrastructure contractor |
| **Founder** | Akil Parvaiz, Founder & Managing Director |
| **Head office** | ROOF TOP, 111-A, APEX CORE INFRA, Lane Number 7, Near Masjid Khadija, Umar Colony, Jammu, Jammu and Kashmir, 180011 |
| **Site office** | NH-44, Near Railway Station Banihal, Distt. Ramban, Jammu & Kashmir — 182132 |
| **GSTIN** | 01EMCPP3237G1ZE |
| **PAN** | EMCPP3237G |
| **Phone** | +91 91860 77911 |
| **Email** | akilparvaiz@gmail.com |
| **Website** | https://apexcoreinfra.lovable.app |
| **Geographic coverage** | Jammu & Kashmir and adjoining regions; mobilisation available pan-India for specialist packages |
| **Client types** | Government departments, EPC and principal contractors, private developers and corporates |
